

TBI TECHNOLOGY AND INNOVATION DIVISION

GRADUATE INTERNSHIP PROGRAM

The Technology and Innovation Division includes TBI's Criminal Intelligence Unit, Technical Services Unit (investigative technologies), and information systems programs.

RESPONSIBILITIES

The Technology and Innovation Division is looking for law student interns with a special interest in criminal intelligence and investigative technologies to help with research and compliance issues around these emerging areas of law and public policy. Interns assigned to TID would work with Division leadership to conduct research and drafting projects in support of the division's mission to responsibly deploy investigative technologies in support of TBI's public safety mission. Interns assigned to TID would be exposed to criminal intelligence operations, technical, online, and cyber investigations.

PREFERRED QUALIFICATIONS

Working toward obtaining a juris doctor degree.

PERFORMANCE EXPECTATIONS

TID expects that a successful applicant will be able to conduct basic legal and policy research around topics related to criminal intelligence and investigative technologies. They will be expected to ask relevant questions and develop interpersonal skills necessary to interact with various types of people encountered during TID investigative and intelligence operations. They will be expected to be fully engaged in all processes, free from external distractions.
